

## Acudetox 5-Needle Protocol Training

Thousands of behavioral healthcare professionals in the U.S. and around the world offer ear acupuncture using the 5-needle protocol (5NP) to support healing from addictions, trauma recovery, and overwhelming stress. This tool is simple, portable, non-verbal, and an effective adjunct to other health services. Veterans' hospitals, first responders, addiction treatment programs, drug courts, disaster relief, and school settings use 5NP, sometimes called acudetox, for a return to balance during mental suffering. Texas law allows the use of the 5-needle protocol for the treatment of trauma, physical, emotional and psychological stress, and to support recovery from addictions.

Healthcare practitioners learn the 5NP protocol in 70 hours, divided into didactic and clinical experiences. This three-day training with a brief, online follow-up, provides a mixture of both. To complete the process, trainees will do additional homework assignments and deliver supervised 5-needle protocol treatments.

In Texas, the following licensed professionals may obtain a permit as an 'acudetox specialist' (ADS): **Social Worker, LPC, LPC-A, Nurse, Acupuncturist, LCDC, LMFT, LMFT-A, Physician, Psychologist, and Physician's Associate.**

DATE / TIME:	5NP Texas training is conducted Friday, Saturday, Sunday, 10:00 a.m. to 6:00 p.m. unless otherwise noted. This allows trainees a clinical experience with the public at Northwest Counseling. Trainees are responsible for scheduling supervised clinical experiences and homework assignments, and will not be considered eligible for Texas certification until completion.
CREDIT:	A total of 24 CEU hours are offered through NCWC including ethics and universal precautions. You must be present during the entire course and submit an evaluation form upon the completion of training to receive CEUs.
